

Tri-Health Camp Parent Comments

What do you feel was your child's favorite and/or least favorite parts of camp?

Drew enjoyed learning and having a good time.
Interaction with the coaches. You all are absolutely great with kids and that makes a huge difference with helping them learn.
Emery loved everything about Basketball! We have absolutely no complaints what-so-ever! He loved playing with the parachute, dribbling the ball, and making lots of baskets!
The challenge of doing harder drills (most favorite)

What was your favorite and/or least favorite part of camp?

We loved that the fundamentals were being taught.
No least favorite. Favorite was my son's interaction with the coaches
All of the coaches were great with the kids and did a great job connecting with the 3 - 5 year olds. They are a difficult age to keep engaged and Josh, Trey, and Lawrence made it fun and kept them all interested.
Plenty of coach attention (favorite)

What feedback do you have for the Ohio Ballstars staff?

Thought you guys did a great job with the program.
Keep up the great work, I couldn't have asked for a better experience for my son to start learning about basketball.
All of you were a pleasure and were wonderful with Emery. He looked forward to coming each week!

Any additional feedback, comments, or testimonials...

Great camp for any age child wanting to learn the fundamentals of basketball.
I could not have asked for a better experience for my 4 year old son to learn about basketball, they made the entire experience fun and exciting. My son could not wait to go every week and would ask every day if he was going to basketball today.
The coaches provided such a positive experience while they learned technique and skills they will need to develop a love for basketball. Thank you for such a great experience.
The Ohio Ballstars provide a wonderful learning environment for small children. My son is 4 years old and truly enjoyed going to their 3 - 5 year old Basketball Camp at Tri-Health Fitness Pavilion. All of the coaches: Josh, Trey, Lawrence and Katelyn were very skilled and worked well with small children. They kept them engaged and taught them to work together and individually on their skills. Definitely will be signing my son up again and his little brother when he is old enough! Thanks guys:)
It was a great way to jump start the season, definitely be interested in more classes.
I am very impressed with the Ohio Ballstars coaches. They know what skills each individual player has and what they need to improve on. The coaches will work with them to improve those skills and help them become well rounded players. You and your team were great with the kids. They had so much fun they didn't even realize they were learning basketball fundamentals! It's a great program, Josh.
From a parent perspective, I want you to know that I find you extremely gifted at working with youth. You have the magical combination of lots of positive reinforcement interspersed with very constructive coaching. You do an excellent job moving around the gym to have contact with every kid and give them great praise and individualized coaching. Thank you for taking your time to do this.
